Key features

- Promotes healthy immune system function that, in turn, promotes increased energy and the healthy function of all other systems throughout the body.
- Contains transfer factors (immune messenger molecules) that help educate immune cells and promote the immune system's ability to more effectively recognize, respond to, and react to potential health threats.
- Features NanoFactor extract that supports immune system balance by promoting the ability of immune cells to know when to act, how to act, and when to rest.
- Provides a rich source of antioxidants that help protect the body from naturally occurring free-radicals.
- Contains a composition of essential fatty acids, amino acids, trace minerals and flavonoids.
- Includes lactoferrin, a beneficial milk protein, for added antioxidant and immune system support.
- Ensures exclusivity with protective United States patents: 6,468,534 (extraction process for transfer factors from egg sources) and 6,866,868 (combination process of transfer factors from cow colostrum and chicken egg yolks).

DIRECTIONS: Drink one or more ounces daily.
